## Company profile

**SNS FOODS** was established in 2005, since when it has grown enormously successful. We employ 18 professionals to take care of **trading, logistics, quality control, finance** and **sales management**. We are still developing and changing to fulfill the needs of our customers.

We started with international trading of fresh and frozen meat – **pork, beef and poultry**. We introduced other products such as **convenience food, cans** and **processed meat** as well as other types of meat like **lamb**. Additionally, we implemented new product lines such as: **vegetables** (also our brand **Freeze Delice**), **fruit, fish** and **sea food** (we import to Poland, as well as trade between third countries), **eggs, dairy products, grains** and **other foods**.

Customer satisfaction is what matters the most to us and therefore we have found numerous partners in **processing and trading companies, wholesalers, HORECA suppliers** (for hotels, restaurants and catering), **retail** and **others**.

We are looking for **regular, long-term customers** and we are prepared, on their behalf, to deal with **quality control, documents** and **on-time deliveries**.

We also support our suppliers with the knowledge of the **correct preparation of goods**, we establish **long-term contracts** and always meet **our financial obligations on time**.

If you are our customer – we are very happy that you can learn more about us and our company. If we have not had the chance to cooperate yet, please trust us and check our reliability. Contact me or one of our traders to find out more about all the business opportunities.

**We look forward to hearing from you!**
